CUIP

ABOUT CUIP: Our program believes that all public school students deserve access to technology resources to help enhance their education. In support of this belief, CUIP Staff and NSP students:

- Assist teachers and students with technology in the classroom and computer lab.

- Help create technology projects such as classroom blogs and podcasts.

- Assist with technical support and computer maintenance, including loading software and network & server management.

- Sponsor an area-wide technology fair to highlight outstanding student work.

If you are interested:
  1. **Fill out the on-line skills survey at:**
     http://cuip.net/student-survey

  2. **We will contact you within 24 hours via e-mail to set up an interview.**
